

There's a Sani-Cloth® for every need.

It's complete surface disinfection.
STAT.

All surfaces are not created equal. Sensitive surfaces of patient monitoring equipment to stethoscopes to stainless steel tables may require different types of disinfectant chemicals.* The Sani-Cloth® family of surface care products provides the most complete line of disinfectant wipes formulas catering to the different surface needs in healthcare settings. Sani-Cloth®. We've got you covered.

Learn more at pdipi.com or call 1-800-999-6423

*Always check with equipment manufacturer for recommended disinfectant chemicals.
